PALOS COMPANY

FOR GENERAL ELECTRICAL CONTRACTING - LIMITED

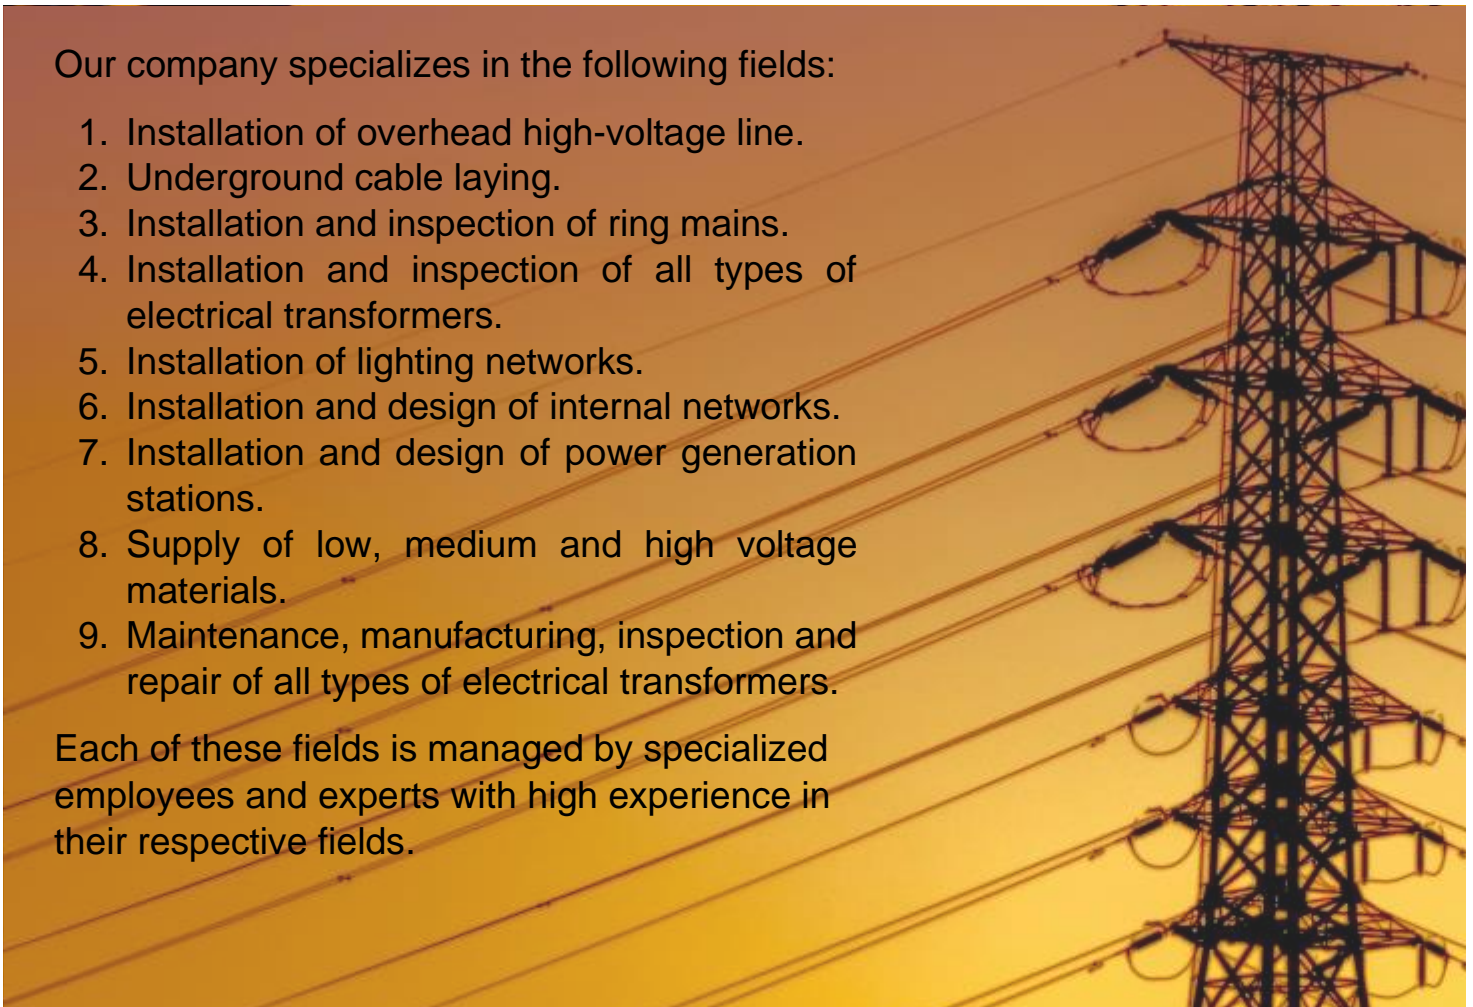

COMPANY INTRODUCTION:

Palos Company, established in 2009, is a first-class Iraqi company specializing in technical services for electricital distribution. With a capital of 8.5 billion Iraqi dinars, our headquarters are located in Erbil, the capital of the Kurdistan Region, under the leadership of Mr. Haro Abdul Rahim Redha. Our mission is to deliver high-quality products tailored to meet the demands of customers across various industries. At Palos, our skilled team of engineers and technicians is dedicated to ensuring solutions that are safe, reliable, and efficient. We strive to support our customers' success by providing customized solutions for all their electrical needs.

Our company specializes in the following fields:

1. Installation of overhead high-voltage line.
2. Underground cable laying.
3. Installation and inspection of ring mains.
4. Installation and inspection of all types of electrical transformers.
5. Installation of lighting networks.
6. Installation and design of internal networks.
7. Installation and design of power generation stations.
8. Supply of low, medium and high voltage materials.
9. Maintenance, manufacturing, inspection and repair of all types of electrical transformers.

Each of these fields is managed by specialized employees and experts with high experience in their respective fields.

VISION:

At Palos, our mission is to provide innovative and reliable electrical engineering solutions that enable our customers to achieve their operational goals. We are committed to excellence in the design and supply of low voltage (LV), medium voltage (MV) and high voltage (HV) systems. Through our dedication to quality, safety and customer satisfaction, we strive to enhance the efficiency and performance of electrical infrastructure across diverse industries.

MISSION:

To realize our vision and establish the trust and reputation we aspire to, Palos Company adheres to strict ethical principles and guidelines. These commitments ensure that we provide meaningful value and benefits to our partners, affiliates, and collaborators.

COMPNY STAFF:

Palos has a dedicated team of experts with over 15 years of experience in the fields of electrical contracting, supplying and installation at all levels (low, medium and high voltage), in addition to maintenance and civil construction services. and we pride ourselves on having a team of highly skilled engineers dedicated to maintaining the highest standards of efficiency. We are committed to completing all our projects on time, and meeting even the most complex requirements. Below is a list of the company's employees.
